

Automating & Enhancing Care Pathways

Join this groundbreaking project, a collaborative effort between Mikata and Calgary and area Primary Care Networks.

We're on a mission to simplify the integration of care pathways into your everyday practice, making healthcare more efficient and effective for both providers and patients alike.

Unlock a suite of exclusive benefits

Appointment Reminders

Receive reminders for all your appointments and seamlessly collect crucial information for prenatal and headache pathways, ensuring your patients receive timely and personalized care.

AI Medical Scribe

Say goodbye to tedious charting tasks with our AI-powered scribe, freeing up more time for you to focus on what matters most—your patients.

Secure Patient Messaging

Communicate securely with your patients, complete with customizable features tailored to your practice's needs.

Direct EMR Integration

Effortlessly integrate the Mikata Platform into your existing EMR system, streamlining your workflow without any additional time investment.

And the best part?

You're getting all of this at absolutely no cost to your practice for the duration of the project (approximately 6 months).

Your role in this exciting initiative is straightforward yet impactful:

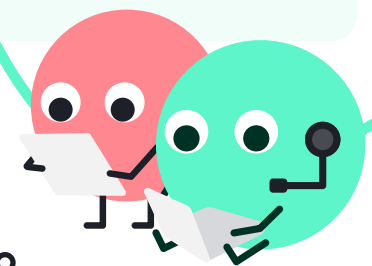

Provide Feedback

Help shape the technology design and provide valuable input for outcome measures.

Implement the Mikata Platform

Integrate and utilize our platform in your clinic, with setup and training requiring just one hour of your time.

Set-up

Testing Feedback

Jun '24 - Jul '24

Aug '24 - May '25

(1-2 hours)

(1-3 hours)

The timeline is designed to fit seamlessly into your schedule, with minimal time commitment required:

To participate, all you need to be is a primary care provider within a Calgary and area PCN, using Telus Med Access, Telus PSSuite, or QHR Accuro EMR, and regularly referring patients for maternity or headache care.

Ready to revolutionize your practice and enhance patient care? Simply fill out the **form linked here**, and we'll guide you through the next steps. Have questions? Reach out to Emily at emily@mikatahealth.com for personalized assistance.

Physicians will be remunerated for their participation.

This project is funded by the Alberta Innovates Digital Health Sandbox Program.
